Our Factory

Mariot Group's factory in Sharjah employs highly-skilled engineers and is equipped with high-tech equipment at the latest level. As a matter of fact, the state-of-the-art facility is setting a new standard. The company's reputation extends beyond the Gulf region and attracts the interest of industry professionals. The company's consultants are available to help customers create the perfect solution for their next project by allowing them to see the manufacturing process first-hand.

Mariot Group employs highly skilled teams to craft products and components in separate, designated areas, while 20 high-tech production lines help the company track the quality of manufacture and production progress throughout the entire process so that it can meet agreed production and delivery schedules. Mariot Group manufactures the most advanced equipment in the industry using stainless steel grade 304 and a highly developed and sophisticated manufacturing process. Mariot Group's facilities meet internationally-required standards and regulations.
