BIGMIX®

You set the process.
BigMix does the hard work

NEW PRODUCT 2026 NEW PRODUCT

SINCE 1953

FAMA Industrie

BIGMIX®

Power and control

BIGMIX is a high-capacity vertical immersion mixing system designed for continuous professional use in gelato labs, pastry kitchens and food production facilities.

The machine combines industrial power, ergonomic operation and interchangeable processing tools to standardize product texture while reducing manual handling.

NEW PRODUCT 2026 NEW PRODUCT

Gelato Production

Gelato Production: designed to refine and stabilize gelato mixes through controlled particle size reduction and uniform fat dispersion.

Pastry Production

Pastry Production: ideal for emulsions, ganache, custards and high-gloss mirror glazes with stable structure and shine.

Food Processing Lab

Food Processing Labs: suitable for processing vegetables, fruit preparations, sauces, purées and liquid bases requiring homogeneous texture.

Advantages

BigMix improves workflow efficiency, minimizes manual handling and operator fatigue, and guarantees batch-to-batch consistency.

Available Versions

	CODICE PRODOTTO / *PRODUCT CODE*
BIGMIX MESCOLATORE 300mm + OMOGENEIZZATORE 300mm +BLENDER TUBE 300mm + HOMOGENIZER TUBE 300mm	BIGMIX.3
BIGMIX MESCOLATORE 400mm + OMOGENEIZZATORE 400mm +BLENDER TUBE 400mm + HOMOGENIZER TUBE 400mm	BIGMIX.4

A versatile set of processing tools designed for consistent results across multiple applications.

BLENDER TUBE

Stainless steel blade for blending, emulsifying and coarse chopping of fruit, vegetables, sauces and purées.

	PRODUCT CODE
BLENDER TUBE 300mm	FM300

	PRODUCT CODE
BLENDER TUBE 400mm	FM400

HOMOGENIZER TUBE

Stainless steel assembly: reduces particle size down to 2 µm for improved smoothness, stability and creaminess in dairy and gelato bases.

	PRODUCT CODE
HOMOGENIZER TUBE 300mm	FO300

	PRODUCT CODE
HOMOGENIZER TUBE 400mm	FO400

MULTIPURPOSE TUBE (optional)

Stainless steel four-blade tool for fine processing, mirror glazes and delicate emulsions.

	PRODUCT CODE
MULTIPURPOSE 300mm	FMU300

	PRODUCT CODE
MULTIPURPOSE 400mm	FMU400

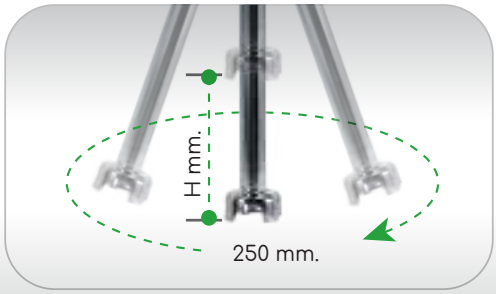

Intuitive operator control panel

Precise variable speed adjustment

Wide vertical stroke with oscillation movement

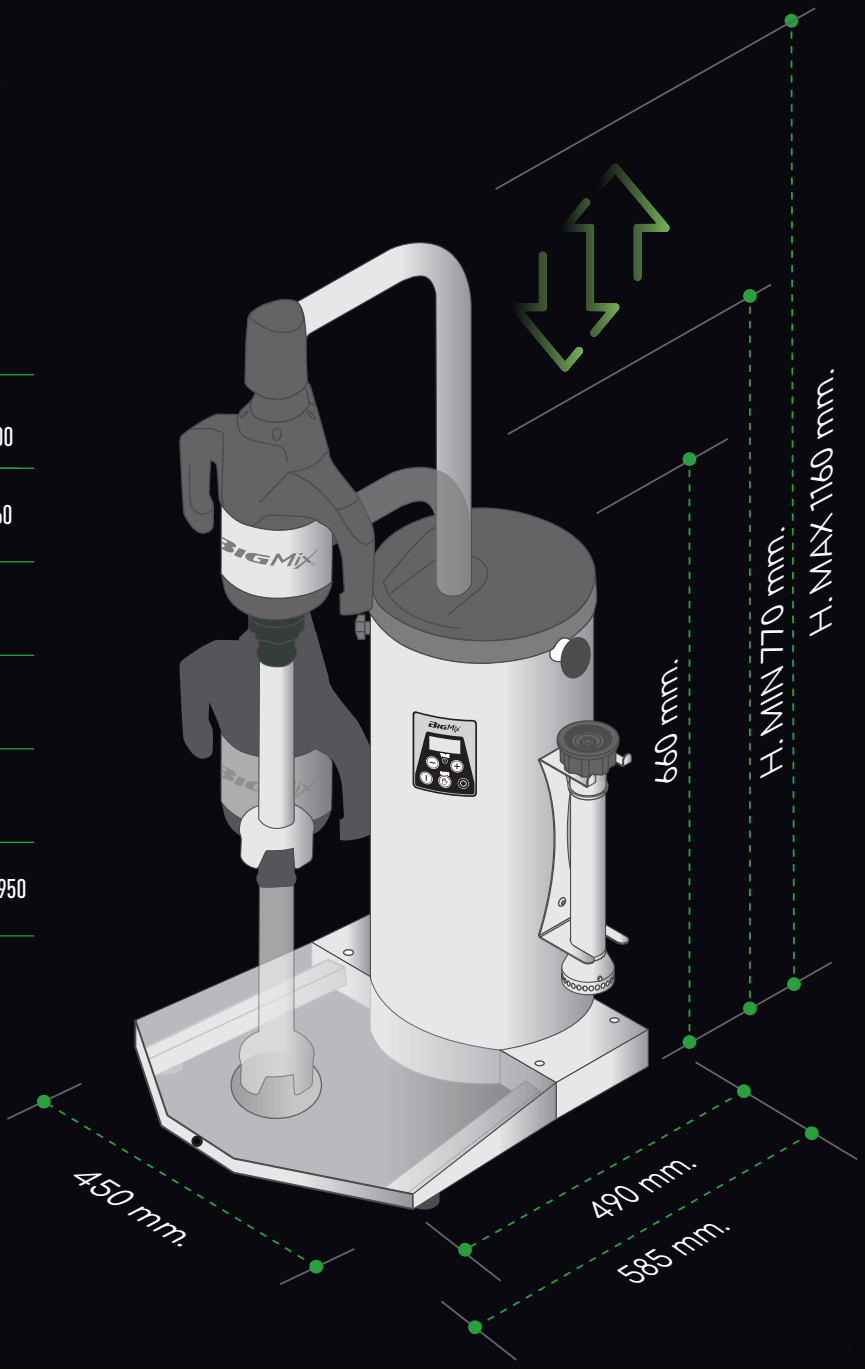

Quick tool coupling

BIGMIX®

TECHNICAL SPECIFICATIONS

Speed (RPM)	min 4.000 max 12.000
Power supply (Volt/Hz)	230 / 50-60
Power (Watt)	850
Net weight (Kg)	43
Batch capacity (Lt)	min 3 max 15
Palletized dimensions (mm)	630x510x950
Gross weight - with packing (kg)	52
